Android: <https://play.google.com/store/apps/details?id=com.app.showassist&pcampaignid=pcampaignidMKT-Other-global-all-co-prtnr-py-PartBadge-Mar2515-1>

- **Look Who's Outdoors - Create Event and Celebrate**

I'm excited to introduce you to "Look Who's Outdoors," an innovative event-based application crafted using the robust technologies of React Native, REST APIs, Redux, Redux-Saga, Google Maps integration, and UTC time zones for seamless event management across different regions. This app redefines the way people connect and create events, offering users, the freedom to host gatherings, whether paid or free, at their chosen locations. It's all about bringing people together, no matter where they are, to explore and enjoy the great outdoors.

iOS: <https://apps.apple.com/sa/app/look-whos-outdoors/id1598558959>

Android: https://play.google.com/store/apps/details?id=com.look_who_outdoors.dev

- **Journey to Bethlehem - Music Player**

Journey to Bethlehem is a unique music player application designed specifically for a church community. This app is built using React Native leverages the power of React Native Music Player for seamless playback of religious music tracks. With features like play, pause, and forward, it offers a user-friendly interface similar to conventional music players. Additionally, "Journey to Bethlehem" harnesses the capabilities of the Redux Toolkit for efficient state management, ensuring a smooth and responsive music listening experience. To enhance engagement, the app incorporates Push Notifications to keep users informed about church events and updates. "Journey to Bethlehem" serves as a valuable tool for the church community to immerse themselves in the spiritually uplifting world of music.
